Easily accessible on web
• All you need is a TWIG Point SP account

Subscription pricing
• All devices are charged according to selected subscription. Deactivated devices are free of charge.

More features included
• Have access to all TWIG Point modules, with or without full ARC application

Service provider model
• Your customers, your business accounts

Turn-key services
• Fast and easy device registration

Scalability
• Activate and deactivate devices as you need. Scale up and down in line with changes in your infrastructure.

Fast and easy device registration and deployment
• Saves time and hussle

Select between 3 subscriptions

The new simplified pricing is based on subscriptions of 3 service levels: All inclusive, Utility and Free.

All inclusive subscription includes all TWIG Point services activated on all added devices and is a turn-key comprehensive solution for alarms monitoring. With TWIG Point Monitor you can receive, monitor and handle all your alarms in one unifying platform.

Utility subscription includes all TWIG Point services and limited Monitor functions without UI. Integrate parts of TWIG Point into your system.

Free subscription includes remote configuration, FOTA and assisted GNSS and will suit customers who don't need full ARC application.

In your TWIG Point SP account you can see a monthly break-down list of all your sub-accounts and services they used. You can download the break down list for your bookkeeping anytime.

Get a subscription

1. Request TWIG Point SP subscription from TWIG Sales (sales@twigcom.com). Available TWIG Point SP subscriptions can be viewed here below.

2. After TWIG Point SP account creation by TWIG Sales, you will receive an automatic mail from TWIG Point to register your subscription. Once your subscription is registered, you can start to use the services included in your subscription.

3. Ordering is also possible directly from www.twigcom.com. Ask TWIG Sales to create a TWIG Partner area account for you.

Pricing
