

# TWIG One

The robust lone worker alarm for noisy and hazardous industrial environments.

The essential lone worker protection functions, powerful loudspeaker, robust design and easy integration with various monitoring systems make it a serious choice for the requirements of industry.

## Communication in emergency

- Calls, SMS and data transfer over 2G/3G/4G
- VoIP calls and data transfer over Wi-Fi
- 2-way handsfree calls
- SOS cycle with pre-programmed numbers
- Automatic and manual alarms
- Tracking and location indoors and outdoors
- TWIG MPTP protocol integrated in various alarm systems

### Robust and ergonomic

Easy to wear with belt clip

### Several alarm options

Alarm detection in fall, non-movement, free fall and impact, Amber alert and by pressing SOS key

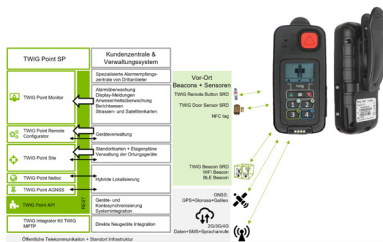

### Configurable user

Configurable menu key and function keys

### Compatible

Thanks to its MPTP protocol TWIG Neo is compatible with various alarm systems.

### Simple and flexible

With remote configuration possibility TWIG One is fast to deploy and flexible to operate.

### NFC Reader

The NFC Reader of TWIG One registers attendance by reading NFC tags.

# TWIG One personal alarm

Integrated high-power speaker-phone boosts two-way voice communications. Powerful vibrating alarm and alarm tones help sensing pre-alarms and incoming communications.
